BOOT CAMP: Transforming Leaders from the Inside Out

WHY YOUR OWN MODEL?

The pursuit of leadership mastery begins with the lesson that leadership is an inside-out discipline. Studying other leaders is crucial -- but in the heat of the moment, when you must make the best decision on-demand, you can't rely on the actions of others. To make the biggest impact, you need an authentic model that reflects your specific experiences, beliefs, and philosophy. Your model is your leadership fingerprint: profoundly unique and belonging only to you. **To leave a lasting imprint, crafting your model is the most important step you can take towards achieving meaningful breakthrough in your career.**

"Doug Conant is a rare combination — someone who thinks like a leader and leads like a thinker. When he talks, not only does the C-suite listen, but they also take notes."

Dan Pink, Bestselling Author & Thought Leader
